

ENVIRONMENTAL POLICY

The company will strive to improve the quality of our environment: this commitment extends to our full range of client services, our employees, our suppliers, sub-contractors and all other interested parties.

Hadrian Window Systems Limited will:

- Comply with all relevant legislation and codes of practice' pertaining to the Company's services and activities.
- Minimise the use of materials and energy, the use of recyclable or renewable resources where practicable
- Minimise waste generation
- Be at the forefront of best environmental practices, and draw this to our clients attention on all projects.
- Establish a continuous improvement programme, in which all management initiatives to conserve or enhance the environment will be supported and encouraged.
- Make appropriate resources available to ensure efficient and effective implementation of this policy.
- Conduct an annual environmental audit of all operations and produce a publicly available annual environmental report.
- Increase environmental awareness and liaison amongst clients, employees, sub-contractors, suppliers, regulatory authorities, local bodies and other interested parties.
- Encourage suppliers and sub-contractors to operate to environmental standards that match and exceed our own.
- To continuously train and educate our employees in sound environmental practices and procedures in order to adopt a working environmental management system as required to meet the standards set out in BS ISO 1400 (2004).
- To ensure that all our operatives, sub-contractors and suppliers deliver our services with consideration for the environment in which the residents and wildlife in the immediate proximity to our working area live and exist.

Continuous Improvement

As part of the company's commitment to continual improvement, this policy will be reviewed annually by the board of directors to reflect the results of the annual environmental audit, changes in environmental legislation, environmental technologies and research along with industrial best practice.

This policy will be used as a basis for setting annual environmental objectives and targets.
